

# Advanced Course on the Multidisciplinary Team Management of Cervical Cancer

JANUARY 26-28, 2023

ROTTERDAM, THE NETHERLANDS

## PRELIMINARY SCIENTIFIC PROGRAMME

| <b>Day 1</b>                                     |   |                            |      |
|--|---|----------------------------|------|
| <b>Track 1: General Considerations</b>           |   |                            |      |
| 12:00  | Registration and Welcome Coffee   |                            |      |
| 13:00  | Welcome – Purpose of the advanced course  | Chairs: P. Morice, R. Nout |      |
|  | <b>Session 1 - Cervical cancer: background from a global perspective</b>  | <b>Chair:</b>              |      |
| 13:15  | Lecture 1: Epidemiology of HPV and cervical cancer, a worldwide problem   |                            | 0:15 |
| 13:30  | Lecture 2: Cervical cancer carcinogenesis   |                            | 0:15 |
| 13:45  | Lecture 3: Accessibility to different treatments around the world   |                            | 0:15 |
| 14:00  | Discussion – Interaction (incl. short case presentation)  |                            | 0:20 |
| 14:20  | <i>Coffee Break</i>   |                            | 0:20 |
|  | <b>Session 2 - Cervical cancer staging</b>  | <b>Chair:</b>              |      |
| 14:40  | Lecture 4: Molecular aspects of cervical cancer   |                            | 0:15 |
| 14:55  | Lecture 5: Pathology of primary tumor and lymph nodes   |                            | 0:15 |
| 15:10  | Discussion - Interaction (incl. short case presentation)  |                            | 0:20 |
|  | <b>Session 3 - Radiology</b>  | <b>Chair:</b>              |      |
| 15:30  | Lecture 6: The role of ultrasound   |                            | 0:15 |
| 15:45  | Lecture 7 + 8: Staging for cervical cancer: local, nodal, distant metastasis / Radiologic evaluation after chemoradiation |                            | 0:30 |
| 16:15  | Discussion- Interaction (incl. short case presentation)   |                            | 0:20 |
| 16:35  | Lecture 9: Role of TMB Role of the multidisciplinary team in staging and best practice examples                           |                            | 0:15 |
| 16:55  | Discussion - Interaction (incl. short case presentation)  |                            | 0:20 |
| 17:15  | Wrap up Day 1   |                            |      |
| 20:00  | <i>Welcome Dinner</i>   |                            |      |
| <b>Day 2</b>                                     |   |                            |      |
| <b>Track 2: Locally Advanced Cervical Cancer</b> |   |                            |      |
|  | <b>Session 4 - Potential indications of surgery in LACC</b>   | <b>Chair:</b>              |      |
| 8:30   | Lecture 10: History of gynaecological radiotherapy  |                            | 0:15 |
| 8:45   | Live from operating room / video: PALND   |                            | 0:50 |
| 9:35   | <i>Coffee Break</i>   |                            | 0:20 |

|   |  |               |      |
|---|--|---------------|------|
| 9:55  | Lecture 11: Clear contra-indications of the pelvic radical surgery in LACCC  |               | 0:15 |
| 10:10   | Lecture 12: Quality indicators of the radical surgery if performed in LACC, ESGO Recommendations                   |               | 0:15 |
| 10:25   | Lecture 13: Para-aortic staging: how and why?<br>Combine or not with pelvic lymph node dissection?                 |               | 0:15 |
| 10:40   | Discussion – Interaction (incl. short case presentation)   |               | 0:20 |
|   | <b>Session 5 - The standard: CT/RT + image guided adaptive brachytherapy</b>                                       | <b>Chair:</b> |      |
| 11:00   | Lecture 14: Role of CT and Ultrasound in image guided brachytherapy  |               | 0:15 |
| 11:15   | Lecture 15: Indications and technique  |               | 0:15 |
| 11:30   | Live / movie from Brachytherapie operating room  |               | 0:45 |
|   | Delineation (and dosimetric) workshop for brachy   |               |      |
| 12:15   | Discussion – Interaction (incl. short case presentation)   |               | 0:20 |
| 12:35   | Lunch  |               | 1:00 |
|   | <b>Session 6 -Morbidity and QoL</b>  | <b>Chair:</b> |      |
| 13:35   | Lecture 16: Morbidity of surgical procedures and impact on QoL   |               | 0:15 |
| 13:50   | Lecture 17: Morbidity of (adjuvant) CT/RT and impact on QoL  |               | 0:15 |
| 14:05   | Discussion – Interaction (incl. short case presentation)   |               | 0:20 |
|   | <b>Session 7 - Decision making criteria radical surgery or CT/RT</b>   | <b>Chair:</b> |      |
| 14:25   | Lecture 18: Local tumor extension: depth of invasion / parametrial infiltration / vaginal involvement              |               | 0:15 |
| 14:40   | Lecture 19: Nodal involvement  |               | 0:15 |
| 14:55   | Discussion and Interaction (incl. short case presentation)   |               | 0:20 |
| 15:15   | Coffee break   |               | 0:20 |
|   | <b>Session 8 - How to adapt according to non-availabilities of treatment?</b>                                      | <b>Chair:</b> |      |
| 15:35   | Lecture 20: ESGO/ESTRO/ESP Guidelines  |               | 0:15 |
| 15:50   | Lecture 21: Targeted therapy for cervical cancer   |               | 0:15 |
| 16:05   | Lecture 22: Place, modalities and reasons of neoadjuvant Chemo   |               | 0:15 |
| 16:20   | Discussion – Interaction (incl. short case presentation)   |               | 0:20 |
| 16:40   | Wrap up Day 2  |               |      |
| <b>Day 3</b>  |  |               |      |
| <b>Track 3: Recurrent Disease and Difficult Cases</b> |  |               |      |
|   | <b>Session 9 - Recurrent disease in pelvic cavity</b>  | <b>Chair:</b> |      |
| 9:00  | Lecture 23: Management of pelvic recurrent disease in non-irradiated area  |               | 0:15 |
| 9:15  | Lecture 24: Place, indications and modalities of pelvic exenterations and laterally extended surgery (+/- IORT/BT) |               | 0:15 |
| 9:30  | Lecture 25: Is there a place for re-irradiation  |               | 0:15 |
| 9:45  | Lecture 26: Chemotherapy in recurrent/metastatic disease setting   |               | 0:15 |
| 10:00   | Discussion – Interaction (incl. short case presentation)   |               | 0:20 |

|       |  |               |      |
|-------|--|---------------|------|
| 10:20 | Coffee break   |               | 0:20 |
|       | <b>Session 10 - Difficult cases</b>  | <b>Chair:</b> |      |
| 10:40 | Lecture 27: Pregnancy, metastatic disease, very advanced disease (fistula) |               | 0:15 |
| 10:55 | Lecture 28: Radical treatment in early metastatic disease?                 |               | 0:15 |
| 11:25 | Discussion – Interaction (incl. short case presentation)                   |               | 0:20 |
| 11:45 | Wrap up Day 3  |               |      |
| 12:00 | Closure of the Course and Departures                                       |               |      |
