

Advanced Course on the Multidisciplinary Team Management of Cervical Cancer

January 26-28, 2023
ROTTERDAM
THE NETHERLANDS

PRELIMINARY SCIENTIFIC PROGRAMME

Chairs: Remi A. Nout, Philippe Morice

| Day 1, January 26, 2023 | | | |
|---|---|------------------------------------|------|
| Track 1: General Considerations | | | |
| 12:00 | Registration and Welcome Coffee | | |
| 13:00 | Welcome – Purpose of the advanced course | Chairs: Philippe Morice, Remi Nout | |
| | Session 1 - Cervical cancer: background from a global perspective | Chair: Christina Fotopoulou | |
| 13:15 | Lecture 1: Epidemiology of HPV and cervical cancer, a worldwide problem | Murat Gultekin | 0:15 |
| 13:30 | Lecture 2: Cervical cancer carcinogenesis | Christina Fotopoulou | 0:15 |
| 13:45 | Lecture 3: Accessibility to different treatments around the world | Murat Gultekin | 0:15 |
| 14:00 | Discussion – Interaction (incl. short case presentation) | | 0:20 |
| 14:20 | <i>Coffee Break</i> | | 0:20 |
| | Session 2 - Cervical cancer staging | Chair: Mary McCormack | |
| 14:40 | Lecture 4: Molecular aspects of cervical cancer | TBC | 0:15 |
| 14:55 | Lecture 5: Pathology of primary tumor and lymph nodes | TBC | 0:15 |
| 15:10 | Discussion - Interaction (incl. short case presentation) | | 0:20 |
| | Session 3 - Radiology | Chair: Cyrus Chargari | |
| 15:30 | Lecture 6: The role of ultrasound | David Cibula | 0:15 |
| 15:45 | Lecture 7 + 8: Staging for cervical cancer: local, nodal, distant metastasis / Radiologic evaluation after chemoradiation | TBC | 0:30 |
| 16:15 | Discussion- Interaction (incl. short case presentation) | | 0:20 |
| 16:35 | Lecture 9: Role of TMB Role of the multidisciplinary team in staging and best practice examples | R.Nout/P.Morice | 0:15 |
| 16:55 | Discussion - Interaction (incl. short case presentation) | | 0:20 |
| 17:15 | Wrap up Day 1 | | |
| 20:00 | <i>Welcome Dinner</i> | | |
| Day 2, January 27, 2023 | | | |
| Track 2: Locally Advanced Cervical Cancer | | | |
| | Session 4 - Potential indications of surgery in LACC | Chair: TBC | |
| 8:30 | Lecture 10: History of gynaecological radiotherapy | TBC | 0:15 |
| 8:45 | Live from operating room / video: PALND | TBC | 0:50 |
| 9:35 | <i>Coffee Break</i> | | 0:20 |
| 9:55 | Lecture 11: Clear contra-indications of the pelvic radical surgery in LACCC | Fabio Landoni | 0:15 |
| 10:10 | Lecture 12: Quality indicators of the radical surgery if performed in LACC, ESGO Recommendations | David Cibula | 0:15 |
| 10:25 | Lecture 13: Para-aortic staging: how and why? Combine or not with pelvic lymph node dissection? | Philippe Morice | 0:15 |

| | | | |
|---|--|------------------------------------|------|
| 10:40 | Discussion – Interaction (incl. short case presentation) | | 0:20 |
| | Session 5 - The standard: CT/RT + image guided adaptive brachytherapy | Chair: Remi Nout | |
| 11:00 | Lecture 14: Role of CT and Ultrasound in image guided brachytherapy | TBC | 0:15 |
| 11:15 | Lecture 15: Indications and technique | TBC | 0:15 |
| 11:30 | Live / movie from Brachytherapie operating room | TBC | 0:45 |
| | Delineation (and dosimetric) workshop for brachy | | |
| 12:15 | Discussion – Interaction (incl. short case presentation) | | 0:20 |
| 12:35 | Lunch | | 1:00 |
| | Session 6 -Morbidity and QoL | Chair: Cyrus Chargari | |
| 13:35 | Lecture 16: Morbidity of surgical procedures and impact on QoL | Fabio Landoni | 0:15 |
| 13:50 | Lecture 17: Morbidity of (adjuvant) CT/RT and impact on QoL | Remi Nout | 0:15 |
| 14:05 | Discussion – Interaction (incl. short case presentation) | | 0:20 |
| | Session 7 - Decision making criteria radical surgery or CT/RT | Chair: Philippe Morice | |
| 14:25 | Lecture 18: Local tumor extension: depth of invasion / parametrial infiltration / vaginal involvement | David Cibula | 0:15 |
| 14:40 | Lecture 19: Nodal involvement | Remi Nout | 0:15 |
| 14:55 | Discussion and Interaction (incl. short case presentation) | | 0:20 |
| 15:15 | Coffee break | | 0:20 |
| | Session 8 - How to adapt according to non-availabilities of treatment? | Chair: Remi Nout | |
| 15:35 | Lecture 20: ESGO/ESTRO/ESP Guidelines | David Cibula | 0:15 |
| 15:50 | Lecture 21: Targeted therapy for cervical cancer | Mary McCormack | 0:15 |
| 16:05 | Lecture 22: Place, modalities and reasons of neoadjuvant Chemo | Mary McCormack | 0:15 |
| 16:20 | Discussion – Interaction (incl. short case presentation) | | 0:20 |
| 16:40 | Wrap up Day 2 | | |
| Day 3, January 28, 2023 | | | |
| Track 3: Recurrent Disease and Difficult Cases | | | |
| | Session 9 - Recurrent disease in pelvic cavity | Chair: David Cibula | |
| 9:00 | Lecture 23: Management of pelvic recurrent disease in non-irradiated area | TBC | 0:15 |
| 9:15 | Lecture 24: Place, indications and modalities of pelvic exenterations and laterally extended surgery (+/- IORT/BT) | Alexandros Rodolakis | 0:15 |
| 9:30 | Lecture 25: Is there a place for re-irradiation | Cyrus Chargari | 0:15 |
| 9:45 | Lecture 26: Chemotherapy in recurrent/metastatic disease setting | Mary McCormack | 0:15 |
| 10:00 | Discussion – Interaction (incl. short case presentation) | | 0:20 |
| 10:20 | Coffee break | | 0:20 |
| | Session 10 - Difficult cases | Chair: Alexandros Rodolakis | |
| 10:40 | Lecture 27: Pregnancy, metastatic disease, very advanced disease (fistula) | Alexandros Rodolakis | 0:15 |
| 10:55 | Lecture 28: Radical treatment in early metastatic disease? | TBC | 0:15 |
| 11:25 | Discussion – Interaction (incl. short case presentation) | | 0:20 |
| 11:45 | Wrap up Day 3 | | |
| 12:00 | Closure of the Course and Departures | | |
