

ESGO-SERGS Pre-Intermediate Course in Robotic Gynaecological Oncology Surgery

November 2-3, 2022
IRCAD, STRASBOURG, FRANCE

Scientific Programme

Chair: Prof. Jordi Ponce

Faculty: Thomas Hébert, TBC

NOVEMBER 2, 2022

11:00	Welcome / Students Introduction / Course Objectives (J. Ponce)
11:15	Patient selection and port placement in advanced robotic surgery
	Patient selection
	Running an efficient
	Port placement and patient positioning (X and Xi) and new instruments for Xi
	Adverse conditions: Obesity
	Discussion
13:00	Lunch
14:00	Step by step
	Simple Hysterectomy
	Pelvic spaces and Radical Hysterectomy
	Pelvic LND
	Aortic LND
	ICG injection, sentinel node and guided LDN (J. Ponce)
	Discussion
15:45	Coffee break
16:00	Dry Lab
	Docking and Port Placement for Si and Xi
	Standard exercises
	Personal improvement and competition between students
18:00	Adjourn
20:00	Working Dinner (all faculty and attendees)

NOVEMBER 3, 2022

08:30	Wet Lab (Animal Model) - Part I
	Animal (Pig) Anatomy - either as a presentation (need a meeting room) or at the wet lab
	Port Placement
	Docking
	3rd Arm Utilization
	Advanced Energy Use
	Pelvic and Aortic Lymph Node Dissection
	Complications & Management (bleeding, suturing)
	Troubleshooting
13:00	Lunch
14:00	Wet Lab (Animal Model) - Part II
15:15	Tips, Tricks, and Pearls (J. Ponce)
	Uterine Manipulators (J. Ponce)
	Previous surgery. Adherence syndrome (J. Ponce)
15:45	Coffee break
16:00	Management of intraoperative complications
	Venous and arterial haemorrhage
	Ureter, bladder, bowel and nerve injuries
16:30	Video Festival: disaster management (all faculty and students)
17:30	Adjourn

NOVEMBER 7, 2022

(Online)

09:00	Introduction
09:05 - 14:30	Live Surgery Transmission from Bellvitge University Hospital, Barcelona, Spain
