

Advanced Course on the Multidisciplinary Team Management of Cervical Cancer

SCIENTIFIC PROGRAMME

Day 1, January 26, 2023		
Track 1: General considerations		
12.00-13.00	Registration and welcome coffee	
13.00-13.15	Welcome – Purpose of the advanced course	<i>Philippe Morice, Remi Nout</i>
13.15-14.10	Session 1 - Cervical cancer: background from a global perspective	Chair: Philippe Morice
13.15-13.30	Lecture 1: Epidemiology of HPV and cervical cancer, a worldwide problem	<i>Murat Gultekin</i>
13.30-13.45	Lecture 2: Cervical cancer carcinogenesis	<i>Christina Fotopoulou</i>
13.45-14.00	Lecture 3: Accessibility to different treatments around the world	<i>Murat Gultekin</i>
14.00-14.10	Discussion – Interaction	
14.10-14.30	Coffee break	
14.30-15.10	Session 2 – Histology and molecular aspects	Chair: Mary McCormack
14.30-14.45	Lecture 4: Pathology of primary tumor and lymph nodes	<i>Lucia Rijstenberg</i>
14.45-15.00	Lecture 5: Molecular prognostic factors for cervical cancer	<i>Lucia Rijstenberg</i>
15.00-15.10	Discussion - Interaction	
15.10-16.15	Session 3 – Radiology and surgical staging	Chair: Remi Nout
15.10-15.25	Lecture 6: Staging for cervical cancer: local, nodal, distant metastasis / Radiologic evaluation after chemoradiation	<i>Maarten Thomeer</i>
15.25-15.35	Video: PALND	<i>Christina Fotopoulou</i>
15.35-15.55	Lecture 7: Para-aortic staging: how and why? Combine or not with pelvic lymph node dissection?	<i>Philippe Morice</i>
15.55-16.15	Discussion - Interaction (incl. short case presentation)	
16.15-16.35	Coffee break	
16.35-17.45	Session 4 – LACC. General statements and potential indications of surgery in LACC	Chair: Murat Gultekin
16.35-16.50	Lecture 8: Clear contra-indications of the pelvic radical surgery in LACCC	<i>Christina Fotopoulou</i>
16.50-17.10	Lecture 9: Morbidity of surgical procedures in LACC (particularly completion surgery) and impact on QoL	<i>Philippe Morice</i>
17.10-17.25	Lecture 10: Cervical cancer during pregnancy	<i>Philippe Morice</i>
17.25-17.45	Discussion - Interaction (incl. short case presentation)	
17.45-18.00	Wrap up day 1	
20.00-22.00	Welcome dinner	

Day 2, January 27, 2023		
Track 2: Locally advanced cervical cancer		
8.30-11.05	Session 5 - The standard: CT/RT + image guided adaptive brachytherapy	Chair: Remi Nout
8.30-8.45	Lecture 11: Indications and technique	<i>Remi Nout</i>
8.45-9.00	Lecture 12: Role of CT and Ultrasound in image guided brachytherapy	<i>Cyrus Chargari</i>
9.00-9.15	Lecture 13: ESGO ESTRO Quality indicators radiotherapy	<i>Cyrus Chargari</i>
9.15-9.45	Lecture 14: The brachytherapy workflow and clinical decision making	<i>Henrike Westerveld</i>

9.45-10.05	Discussion – Interaction (incl. short case presentation)	
10.05-10.25	<i>Coffee break</i>	
10.25-10.40	Lecture 15: New developments in gynaecological radiotherapy	<i>Remi Nout</i>
10.40-10.55	Lecture 16: Morbidity of (adjuvant) CT/RT and impact on QoL	<i>Henrike Westerveld</i>
10.55-11.05	Discussion – Interaction	
11.05-12.35	Session 6 - Decision making criteria radical surgery or CT/RT	Chair: Christina Fotopoulou
11.05-11.25	Lecture 17: Local tumor extension and place of ultrasound to evaluate it : depth of invasion / parametrial infiltration / vaginal involvement	<i>David Cibula</i>
11.25-11.45	Lecture 18: Robotic radical hysterectomy within an ongoing trial in early stage + video	<i>Ramon Smolders</i>
11.45-12.00	Lecture 19: Quality indicators of the radical surgery if performed in LACC, ESGO Recommendations	<i>David Cibula</i>
12.00-12.15	Lecture 20: Nodal involvement and the role of radiotherapy	<i>Remi Nout</i>
12.15-12.35	Discussion and Interaction (incl. short case presentation)	
12.35-13.30	<i>Lunch break</i>	
13.30-14.35	Session 7 – Guidelines and hot topics	Chair: Remi Nout
13.30-13.45	Lecture 21: ESGO/ESTRO/ESP Guidelines	<i>David Cibula</i>
13.45-14.00	Lecture 22: Targeted therapy for cervical cancer	<i>Mary McCormack</i>
14.00-14.15	Lecture 23: Place, modalities and reasons of neoadjuvant Chemo	<i>Mary McCormack</i>
14.15-14.35	Discussion – Interaction (incl. short case presentation)	
14.35-16.30	Session 8 - Recurrent disease in pelvic cavity	Chair: Murat Gultekin
14.35-14.50	Lecture 24: Management of pelvic recurrent disease in non-irradiated area	<i>Remi Nout/Henrike Westerveld</i>
14.50-15.05	Lecture 25: Place, indications and modalities of pelvic exenterations and laterally extended surgery (+/- IORT/BT)	<i>Christina Fotopoulou</i>
15.05-15.20	Lecture 26: Is there a place for re-irradiation	<i>Remi Nout</i>
15.20-15.40	<i>Coffee break</i>	
15.40-15.55	Lecture 27: Role of surgery in oligometastatic disease; fistula mangement	<i>Christina Fotopoulou</i>
15.55-16.15	Discussion – Interaction (incl. short case presentation)	
16.15-16.30	Wrap up	
16.30-16:45	Closure of the course and departures
