

GENERAL CHARACTERISTICS

TITLE OF CONGRESS: HOT ISSUES AND CONTROVERSIES IN MODERN GYNAECOLOGIC ONCOLOGY

DATE: 17-19 March 2023

INSTITUTION: 2nd Department of Obstetrics and Gynecology, Aristotle University of Thessaloniki, Greece

In association with Institute of Gynecologic Oncology and Breast Oncology, Greece

Congress venue: Electra Hotel Palace, Thessaloniki, Greece (5*)

President of the Congress: Professor Konstantinos Dinas, Director of 2nd Department of Obstetrics and Gynaecology, Thessaloniki, Greece

Organizing responsible: Stamatios Petousis, Assistant Professor, 2nd Department of Obstetrics and Gynaecology, Thessaloniki, Greece

Chrysoula Margioulas-Siarkou, Academic Fellow, 2nd Department of Obstetrics and Gynaecology, Thessaloniki, Greece

SCIENTIFIC PROGRAM

FRIDAY MARCH 17, 2023

08:00-14:00 PRE-CONFERENCE SEMINAR (Video lectures explaining point by point surgical procedures)

Video session 1. Laparoscopic hysterectomy and adnexectomy: step by step procedure. (Frederic Guyon- Chrysoula Margioulas-Siarkou)

Video session 2. Laparoscopic sentinel node for endometrial cancer: step by step procedure. (Henric Falconer)

Video session 3. Debulking surgery for ovarian cancer: step by step procedure. (Timoleon Dages)

Video session 4. vNotes hysterectomy for endometrial cancer (Jan Baekelandt)

Video session 5. Laparoscopic and open pelvic and paraaortic lymphadenectomy: step by step procedure. (Stamatios Petousis- Frederic Guyon-Chrysoula Margioulas-Siarkou)

Video session 6. Oncoplastic techniques for breast cancer surgery: step by step procedure videos. (Mattias Kalder- Konstantinos Dinas- Stephane Zervoudis)

14:00-17:00 BREAK

17:00-18:30 ROUND TABLE 1. PREVENTIVE GYNECOLOGICAL ONCOLOGY

Prof. Nikolaos Salakos, Professor Eleni Bili

1. Thickened endometrium before and after menopause. When and how is an investigation required? K. Pantazis
2. Cytology, HPV-DNA or mRNA for cervical screening? Which is the best screening option? G. Michael
3. Transvaginal ultrasound and tumor markers. Do they aid to prevent ovarian Ca; G. Androutsopoulos
4. Prevention of breast cancer: Mammography, ultrasound or both? E. Mareti
5. IVF and risk of carcinogenesis. Is there a relationship? A. Koutlaki

18:30-19:30 ROUND TABLE 2. LAPAROSCOPY AND GYNECOLOGICAL ONCOLOGY

Professor G.Gkrimbizis, Professor N. Vlachos, Professor A. Protopappas

1. Laparoscopic treatment of early Endometrial Ca: Always, sometimes or never? Chrysoula Margioulas-Siarkou
2. Sentinel lymph node in Endometrial and Cervical Ca. Always, sometimes or never; Henric Falconer (video lecture)
3. Treatment of early ovarian cancer. Is laparoscopy possible, feasible and safe? Stamatios Petousis
4. Laparoscopic radical hysterectomy after LACC trial. Is there still a place? Frederic Guyon

19:30-19:45 BREAK

19:45-20:15 INVITED LECTURE 1.

Presidents: Dr. Frederic Guyon (SFOG President) , Ass. Professor Stamatios Petousis

The process and value of ESGO accreditation to enhance a Department's potential

Professor Rene Verhajen

20:15-21:00 INVITED LECTURE 2.

Presidents: Konstantinos Dinas, Anna Fagotti

The ESGO vision for Gynaecologic Oncology

Professor Nicole Concin

21:00-21:30 OPENING CEREMONY-AWARDS

SATURDAY MARCH 18, 2023

08:00-09:00 THE YOUNG FORUM SESSION (TBA)

Session organized by the Hellenic Society of Greek Medical Students to promote interest of young colleagues for Gynaecologic Oncology

09:00-10:30 ROUND TABLE 3. HOT TOPICS IN CERVICAL PATHOLOGY

Professor E.Paraskevaïdis, Professor M. Kyrgiou, Associate Professor A. Danillidis

1. Abnormal cervical smear and negative colposcopy: what do I do? E. Bilirakis
2. Is there a real benefit to the use of mRNA in clinical practice? E. Paraskevaïdis
3. Positive margins in cervical cone specimen: re-operation or follow-up? N. Tsampazis
4. Is conoid resection an acceptable treatment for early cervical cancer? M. Kyrgiou
5. Preservation of fertility after cervical cancer. Is it possible? A. Rodolakis
6. Current cervical cancer screening guidelines. The Greek-Action initiative A. Daponte

10:30-11:00 BREAK

11:00-13:00 THE ESGO SECTION. MODERN HOT TOPICS IN GYNECOLOGIC ONCOLOGY

Professor Konstaninos Dinas, Associate Professor S.Petousis, Dr. Chrysoula Margioula-Siarkou

1. ESGO guidelines for endometrial cancer. N. Concin
2. ESGO guidelines for cervical cancer. I. Zapardiel
3. ESGO guidelines for ovarian cancer. Anna Fagotti
4. ESGO guidelines for vulvar cancer. R. Verheijen

13:00-13:30 INVITED LECTURE 3.

Trophoblastic disease and current management Ulrika Joneborg

13:30-14:30 TUMOR BOARD 1

A.Papanikolaou, G. Vorgias, P. Papakotoulas, T. Voulgaris, K. Boniou

14:30-16:00 BREAK

16:00-17:00 HOT TOPICS IN VULVAR AND VAGINAL PATHOLOGY

Associate Professor E. Kontomanolis, Dr. K. Pantazis

1. Precancerous vaginal lesions: how do I treat them? D. Tsolakidis
2. Precancerous lesions of the vulva: how do I treat them? I. Kalogiannidis
3. Incipient vulvar cancer: wide local excision or something more? E. Kontomanolis

17:00-18:30 ROUND TABLE 4. HOT TOPICS IN OVARIAN PATHOLOGY

Professor A. Rodolakis, Professor A. Papanikolaou, Dr. A. Sioutas

1. Incidental finding of malignancy at laparoscopy: what should I do? C. Theofanakis
2. Borderline Tumor management. Hysterectomy, appendectomy or even less? C. Kotanidis
3. Endometriosis and ovarian Ca. Is there a correlation? A. Daniilidis
4. Advanced ovarian Ca. Primary surgery or referral to the oncologist? D. Haidopoulos
5. ERAS protocol and modern perioperative treatment. N.Thomakos
6. HIPEC: does it have a place today for ovarian cancer? T. Panoskaltsis

18:30-19:00 BREAK

19:00-20:00 HOT DEBATES

Professor A. Daponte, Professor P. Drakakis, Professor G. Mavromatidis

1. Large uterine mass. Open or laparoscopic excision; T.Theodoridis
2. Endometrial pathology: is diagnostic safe, superior or totally necessary? G. Grimbizis
3. Suspicious ovarian tumor in a young patient. Frozen section or two-steps surgery? S. Petousis

SUNDAY MARCH 19, 2022

08:00-09:00 FREE COMMUNICATIONS SECTION

T. Dagklis, E. Athanasiou, C. Margioulas-Siarkou

09:00-10:30 ROUND TABLE 5. HOT TOPICS IN ENDOMETRIAL PATHOLOGY

Professor G. Antonakis, Professor M. Paschopoulos, Ass. Professor T. Mikos

1. Endometrial polyps during reproductive age. Malignancy potential and optimal management. L. Zepeiridis
2. Recurrent abnormal uterine bleeding during pre and postmenopausal period with negative histology: how I treat them? G. Grigoriadis
3. Endometrial hyperplasia: what is the optimal treatment? T. Vrekousis
4. Surgical management of uterine pathology: where the role of Gynaecologic Oncologist starts?

10:30-11:30 ROUND TABLE 6. CANCER AND PREGNANCY

Professor A. Sotiriadis, Professor G. Makridimas, Prof. A. Mamopoulos

1. Incidental uterus and ovarian finding during pregnancy. What should I do? A. Sotiriadis
2. Preinvasive cervical lesions during pregnancy. What is the optimal management? A-S Laganà
3. Pregnancies in women with history of gynaecologic cancer. Should we be afraid of obstetric complications? A. Gerede

11:30-11:45 BREAK

11:45-12:30 TUMOR BOARD 2

G. Papatheodorou, S. Petousis, C. Margioulas-Siarkou, E. Fountzila, G. Plataniotis

12:30-14:00 ROUND TABLE 7. HOT TOPICS IN BREAST ONCOLOGY

Professor K. Dinas, Professor K. Dimitrakakis, Dr. G. Marinopoulos

1. BIRADS classification made easy. G. Pratilas
2. Breast lesions with benign imaging features: what is the optimal management? K. Dimitrakakis
3. Breast lesions during pregnancy and puerperium: how alert should we be? G. Marinopoulos
4. History of breast cancer: when the woman may get pregnancy and how should we treat pregnancy? E. Mareti
