Motivation letter for ESGO Council Elections - Prof. Mihai Emil Căpîlna, Romania

As an ESGO and ENYGO member since 2006, when my training in gynecologic oncology started, I participated in all ESGO meetings with lectures or posters. Since then, I have established long lasting friendships and collaborations with European colleagues who are now respected leaders in gynecologic oncology subspecialty. My training started in Romania and continued in renowned European centers, like Leuven (under supervision of Prof. I. Vergote and Prof. F. Amant), Budapest (Prof. Ungar and Prof. Palfalvi), Lille (Dr. Leblanc, Dr. Narducci), etc.

I work now as a gynecologic oncologist surgeon in a high-volume tertiary university hospital, performing daily all types of open and minimally invasive procedures (more than 400 pelvic cancer patients per year). Our intense surgical activity allowed us to participate in many collaborative multicentric trials, as SUCCOR, IRTA, FERTISS, RACE, REGYS, COREPEX, etc., independently or as a member of Central and East European Gynecologic Oncology Group (CEEGOG).

As executive president of our national gynecologic oncology society (SRGO), we managed to introduce accredited gynecologic oncology training in Romania. Our clinic runs educational training and accreditation programs including gynecologic oncology, laparoscopy, hysteroscopy and colposcopy. Also, our department is the first to apply for an ESGO accreditation in our country.

If elected to be Council member, my mission would be to involve Eastern European centers with high volume gynecologic cancer patients in international collaborative studies, to bring more educational resources to our region and to build more connections between gynecologic oncology centers from Eastern and Western European countries. It might be an interesting challenge to continue this work under the umbrella of ESGO.
