

Dear Madam/Sir,

I am writing to express my keen interest in joining the ESGO Council for South-Eastern Europe (2024–2028). Your esteemed organization represents a pivotal point in my extensive career as a gynecological oncologist, offering an ideal platform to enhance my skills while contributing my expertise.

I am Dr. Katarina Mastilovic, a gynecology and obstetrics specialist with over 20 years of professional experience. I currently serve as the Head of operational oncology at the Institute of Oncology of Vojvodina, specializing in the diagnosis and treatment of women with genital tract malignancies. Proficient in complex gynecological oncology surgeries, I bring a wealth of clinical experience to the table.

My commitment to continuous growth extends beyond the operating room. I have always actively participated in trainings, lectures, and international congresses. These opportunities have honed my expertise and expanded my knowledge, complementing my surgical skills.

I am proud to have earned recognition from both Serbian and French Ministry of Health, resulting in multiple scholarships for training abroad. This invaluable experience took me to the renowned Institute Gustave Roussy in France, where I acquired insights into cutting-edge surgical techniques. Upon returning home, I eagerly shared my newfound knowledge with colleagues at the Institute, furthering the field of gynecological oncology in my region. In 2011, I was honored with the title of Primarius by the Ministry of Health of the Republic of Serbia.

Beyond my professional qualifications, my compassionate approach to patient care sets me apart. I remain dedicated to treating patients as individuals, valuing their well-being above all. Colleagues and patients alike have praised my compassionate and respectful demeanor.

I have long admired ESGO's work, attending its congresses and implementing its protocols and recommendations in my patient care. Thus, this year I received the ESGO Recognition of Gynaecologist certificate and would like to continue my collaboration with the organization through the Council for South-Eastern Europe and further initiatives.

Thank you for considering my application and look forward to your response. Please do not hesitate to contact me if you have any further questions.

Yours sincerely,

Dr. Katarina Mastilovic
