# Ovarian Cancer Surgical Week

Policlinico Universitario Agostino Gemelli | Rome, Italy

December 1-5, 2025

### Objective:

The surgical management of ovarian cancer has become an indispensable marker of subspecialty in gynecologic oncology. Whatever the setting, primary, interval, secondary, tertiary or more, required surgical skills extend far beyond the management of the genital tract diseases. However, caseload and learning opportunities are required to acquire and maintain proficiency. In addition, assessing the chances to achieve complete resection and preventing, or adequately managing, surgical complications is crucial. Access to targeted treatment for maintenance and recurrence has recently introduced new therapeutic opportunities, however without reducing the need of mastering surgical resection of abdominal and if necessary thoracic disease. The objective of the course is to make young and less young gynecologic oncologists comfortable with the different procedures required to achieve complete resection of ovarian cancer.

### Format:

Full week seminar dedicated to surgery of ovarian cancer, combining morning live surgeries and surgical technique lectures with videos in the afternoons. Face-to-face interaction with the Gemelli faculty will be favored because of limited number of on-site participants. However, online registration is available for colleagues who do not consider travelling to Rome.

One of the surgeries will be performed on the cadaver model in order to illustrate surgical anatomy and templates, the other surgeries (VATS, upper abdomen procedures, bulky nodes resection, posterior nerve sparing exenteration with douglassectomy, etc..) will be broadcasted from the Gemelli operating room. Ongoing surgical clinical approaches will also been shown. World-class experts will moderate online the live surgery sessions. In the afternoons, with the contribution of the Gemelli team and of the world-class faculty, emphasis will be given on detailing surgical techniques. Long time will be dedicated to discussions.

### Fees

On site, including coffee breaks, lunches, and one get-together dinner: **xxxx euros**. On line : **xxx euros**

**Contacts:** Molipharma

# Ovarian Cancer Surgical Week

Policlinico Universitario Agostino Gemelli | Rome, Italy

December 1-5, 2025

<b>Agenda</b> Day 1 • Monday, 01 December 2025 • 09:00 - 18:00 (CEST)	
09:00 - 13:00	Welcome and introduction Live cadaver broadcasted from the Gemelli LAB
13:00 - 14:00	Lunch
14:00 - 18:00	Theory & Discussion Teaching and learning ovarian cancer surgery in 2025 Surgical anatomy of the abdomen and thorax. Surgical techniques: Hudson delle Piane technique, large and small bowel resection, nerve sparing bowel resection, peritonectomy, omentectomy, splenectomy. lymphadenectomy Liver metastases classification.

<b>Agenda</b> Day 2 • Tuesday, 02 December 2025 • 09:00 - 18:00 (CEST)	
09:00 - 13:00	Live surgery broadcasted from the Gemelli OR
13:00 - 14:00	Lunch
14:00 - 18:00	Theory & Discussion: <b>STAGING, ERAS, periop-management</b> Preoperative staging : accuracy of imaging (CT, MRI, US, FDG PET, FAP PET) and laparoscopic staging 3d reconstruction, virtual reality, augmented reality, 3D printing ERAS & pre-habilitation Prevention, diagnosis, and management of complications Surgical approaches : open, laparoscopic, robotic-assisted, extraperitoneal, thoracic procedures
20:00 - 22:00	Dinner together

# Ovarian Cancer Surgical Week

Policlinico Universitario Agostino Gemelli | Rome, Italy

December 1-5, 2025

## Agenda Day 3 • Wednesday, 03 December 2025 • 09:00 - 18:00 (CEST)

09:00 - 13:00 Live surgery broadcasted from the Gemelli OR

13:00 - 14:00 Lunch

14:00 - 18:00 Theory & Discussion: **ADVANCED**

Complete resection : proof of concept

Ultraradical surgery in the molecular biology and targeted therapies era

IDS or PDS?

Quality of life of OC patients undergoing surgery

HIPEC, technique and indications

## Agenda Day 4 • Thursday, 04 December 2025 • 09:00 - 18:00 (CEST)

09:00 - 13:00 Live surgery broadcasted from the Gemelli OR

13:00 - 14:00 Lunch

14:00 - 18:00 Theory & Discussion: **early stages and recurrence**

Sentinel node; new tracers

Fertility sparing management

Surgical management of recurrent disease

Specificities of non-high grade serous histotypes

## Agenda Day 5 • Friday, 05 December 2025 • 09:00 - 18:00 (CEST)

09:00 - 13:00 Live surgery broadcasted from the Gemelli OR

13:00 - 14:00 Lunch

14:00 - 18:00 Organizing an ovarian cancer surgery unit. Quality indicators

The Gemelli approach and outcome data

Update on ongoing controlled studies

Artificial Intelligence in OC surgery: Computer Vision and peritoneal carcinomatosis” & “LLM as a consultation platform or clinical decision support systems “

Survey across participants, wrap-up
